MATERIAL SAFETY DATA SHEET

Date of Issue: May 2012

Page 1

Product Name: **HAND SOAP - DPIE**

Product Code: **HSOAP-DPIE**

Statement of Hazardous Nature: Not Classified as hazardous according to criteria of Worksafe Australia

- IDENTIFICATION -

Other Names: None.

UN Number: None Allocated.

Dangerous Goods Class and Subsidiary Risk: None allocated.

Hazchem Code: None Allocated.

Poisons Schedule Number: None Allocated.

Uses: Liquid hand soap.

PHYSICAL DESCRIPTION/PROPERTIES

Appearance: Clear, viscous liquid.

Boiling Point / Melting Point (°C): 100° C.

Vapour Pressure (pascals or mm of Hg at 25°C): Not available.

Specific Gravity: Not available.

Flashpoint (°C): None.

Flammability Limits: Not applicable.

Solubility in Water (g/L): Very soluble.

OTHER PROPERTIES

pH: 6.5 - 7.5 @ 100% aqueous solution.

Corrosiveness: None known.

Reactivity: Not applicable.

INGREDIENTS:

<u>USE / FAMILY</u>	<u>CHEMICAL ENTITY</u>	<u>CAS NUMBER</u>	<u>PROPORTION</u>
1. Surfactant	Linear alkylbenzene sulfonate	68584-22-5	< 10%
2. Alkali	Sodium hydroxide solid	1310-73-2	< 1% w/v
3. Surfactant	Biodegradable nonionic surfactant	Not required	< 10%
4. Surfactant	Biodegradable anionic surfactant	Not required	< 10%
5. Softener	Glycerol	56-81-5	< 10%
6. Biocide	Formalin	50-00-0	0.2% w/w
7. WATER	Potable water	7732-18-5	To 100%

Product Name: **HAND SOAP - DPIE**

Product Code: HSOAP-DPIE

- HEALTH HAZARD INFORMATION -

HEALTH EFFECTS

Acute:

Swallowed: Ingestion of large amounts may result in burning pain in the mouth and throat.

Eye: A mild to moderate eye irritant.

Skin: Low hazard for usual handling.

Inhaled: Not normally an inhalant risk due to low vapour pressure at ambient temperatures.

Chronic: The components in the proportions present are not considered to represent a significant health hazard under conditions of good occupational work practice.

FIRST AID

Swallowed: Give plenty of water or milk to drink. If vomiting occurs give further water or milk to achieve effective dilution. Seek medical assistance if required or contact the Poisons Information Centre.

Eye: Hold eyes open, flood with copious quantities of water for at least 15 minutes. Seek medical assistance.

Skin: If irritating remove contaminated clothing and wash skin thoroughly with water. Seek medical advice if effects persist.

Inhaled: Not applicable.

FIRST AID FACILITIES: Eye bath, safety shower and copious quantities of water.

ADVISE TO DOCTORS: Treat symptomatically.

- PRECAUTION FOR USE -

Exposure Standards: No value assigned for this specific product.
For Sodium hydroxide solid U.N.1823: (TWA): 2 mg/m³ 'Peak limitation'.
As published by the National Occupational health & Safety Commission (Worksafe Australia). 1996.

Engineering Controls: Use with adequate ventilation.

Personal Protection: The components in the proportions present are not considered to represent a significant hazard. The wearing of impervious gloves is considered good occupational work practice. Always wash hands before eating, drinking or using the toilet.

Flammability: Non-flammable and non-combustible.

Product Code: HSOAP-DPIE

- SAFE HANDLING INFORMATION -

Transport: Not defined as a dangerous good by the Australian Code for the Transport of Dangerous Goods by Road and Rail.

Storage: To be stored away from food stuffs at all times. Store in a well ventilated area away from direct sunlight. Keep containers sealed when not in use. Check regularly for any leaks. Rotate stock with each new delivery.

Spillages: Clean up any spillages immediately. Avoid accidents as spillages are slippery. Full body protection should be worn. Waterproof overalls, boots, hat, full face shield or goggles and impervious gloves. Avoid skin and eye contact. Contain spill using sand or soil. Prevent run off into drains and waterways. Isolate any leaking containers and transfer contents into alternative, suitable, containers. On spillages use absorbent inert material such as sand, soil, sawdust, vermiculite, or man made inert material. Collect contaminated waste, place and seal in properly labelled, suitable containers. After clean up wash area down with large quantities of water.

NOTE: Suitable containers include polyethylene, polyvinyl chloride, stainless steel or polyethylene lined mild steel drums.

Disposal: For disposal of contaminated waste material contact the Environment Protection Authority.

Fire / Explosion Hazard: Non-flammable and non-combustible. When containers are exposed to extreme heat, keep cool by spraying with water to prevent pressure build-up and drums bursting.

WARNINGS: Nil.

- OTHER INFORMATION -

Contact Point: Alex Mendoza.

Notes: AQIS and DPIE approved ADVANTAGE HAND SOAP does not contain dyes or perfumes as per regulations under the Export Control Act 1982.

DISCLAIMER: All information contained in this Material Safety Data Sheet is as accurate and up-to-date as possible.
